forwarding his further report as follows

1) The scheme is estimated to cost Rs 30,616

'A'

2) He reports that the Hill Chiefs, Bellur Srinivasa Gowda & Lingappa are agreeable to levy a water tax of Rs one and half per rupee of assessed taxes for a period of two years, moreover which they are prepared to collect public subscriptions to the extent of Rs 5000 and Rajaseo proposes to discharge shall of the loans amount Rs 2500 raised by them, all being repayable in 20 years at 3½ interest.

2) Note previous correspondence on 4½ p.c.

3) The Hill Chiefs are also reported to have resolved foregoing for waiving the [illegible] of Rs 3,402 This perhaps cannot be sanctioned

3) Please also see from the

Pakhowa water supply scheme 5

Serial No.

and the scale of interest should have to be 4½ %, as observed by the Secy. of S[illegible] on Audit.

20) The recommendation of the Dte. is for sanctioning the estimate for Rs 30,610 a loan of Rs 19,000 at an interest not exceeding Rs 3½ % and a grant-in-aid towards balance of the cost

21) The estimate for the annual maintenance charges of the water supply is reported to have not yet been furnished by the Secy. Engr. but the maintenance charges are expected to amount Rs 2,000 per year on the basis of the estimate prepared in the Engineering Section of the loan as provided by the Hill Cl, the following sources are proposed for the repayment of the loan instalment of Rs 900 and maintenance charges of Rs 2000 (Total Rs 2,900) every year.

	Rs
1) Water tax realisation	1050
2) House connection fees	900
3) Surplus income over expenditure	950
Total	2900

22) Estimate for the scheme the Dte. should be invited proposals for the levy of water tax separately

23) Submitted for orders. Reply from the Govt of this office Letter No 6249 dt 30 & 31 is not yet received

Belur water supply scheme

General and Revcr ue Secretariat | File No | of 193 | [App F III–2

Serial No.

28) The proposals are.--

(1) Sanction to an estimate for Rs.30,610 for the water supply scheme to Belur town.

(2) Sanction of a Government grant equal to half the cost, viz.,Rs. 15,305, for the work

(3) Sanction of a loan of Rs.10,000 to the Municipality for financing its portion of the cost

29) As regards (1), it is for consideration whether a cheaper scheme at least cost cannot be had consistent with the relative smallness of the place.

30) With regard to (2), it is not known whether it will be possible for Government to allot funds for this work, out of the sanctioned grant in the current year's budget, after meeting sanctioned commitments and other more urgent new schemes.

31) As regards (3) the Municipality wants a loan of Rs.10,000 How it will finance Rs. 5,305 is not known clear. Its closing balance at the end of June 1938 was Rs. 1,756 and its invested balance in the Savings Bank is only Rs. 3,400 (including the donation of Rs. 400) Even by taking that a loan of Rs. 10,000 would be sufficient, the annual instalment payable for it (repayable in 15 years with interest at 4½%) will be Rs. 931, and the

From Subordinate Officers

NOTE—Contn. Sheet.

8) Belur

477

File No of 193

annual maintenance charges are estimated at Rs. 1,734. The Municipality expects to realise Rs. 1,050 from water tax on the basis of a levy at 6 as in the rupee of assessment on taxes on buildings, and -- Rs. 900 from house connection fees. If as suggested by the L S G Secretary, the tax is fixed at 8 as in the rupee, the estimated realisation will be Rs 1,400 The estimate of House connections -- (Rs. 1-8-0 per month for 50 House connections) is high and may not be realised. The Deputy Commissioner states that it is possible for the Municipality to meet the balance (Rs. 750) out of the annual surplus The Deputy Commissioner does not appear to have taken into account the recurring commitments on account of electric lighting to Belur town recently sanctioned by Government Before the present scheme is sanctioned, it is very desirable to get further details on the -- following points.--

(1) Whether the Municipality is willing to the levy of water tax at 8 as in the rupee as suggested by the L S G Secretary

(2) ~~That~~ Whether the resources of the Municipality are, available balances & to meet Rs 5,305 ~~from its balances~~ sufficient

A

(3) Whether the Municipality is willing to take a loan of Rs 10,000 at 4½% interest repayable in 15 years

(4) How it will be able to pay the annual instalments, (towards both principal and interest) after meeting its ~~own~~ other obligations including electric lighting charges

Govt Rs 56 of 15/9/35 Rs 2/13/9/- to do Memo No 1235/9 of 15/9/35 copies of 90 &

From the Dy Comr Manbhum

Letter No 5 PR 60/36 Dy 3.10.36

Forwarding the information called for

(a) The Md of Behar is reported to have resolved to levy loans for only at the rate of 6 annas in the rupee of Mohabarfa, the realisations therefrom being Rs 1,125 a year. A further sum of Rs 90- is expected from house connections

(b) The Ramgarh [illegible] Council is stated to have at its credit a sum of Rs 5,000 mainly under investment for pay the balance of this debt of Rs 5,105

(c) The annuity of Rs 850 towards the loan is proposed to be paid from out of the surplus of income over expenditure, as already stated in the D.C's letter of 20.7.36

(d) Regarding the loan, the Md of Bhowra stated to have agreed to accept a loan of Rs 10,000 at 4% interest, repayable in 20 instalments. But the D.C opines that the period of repayment may be fixed as 15 years and recommends a loan of Rs 10,000 repayable in 15 years at 4% interest

WD 1234—GPE—10,000—12-5-37

4) The average rate of interest on our long term borrowings is round about 5% now and the rate of 4½% now prescribed in respect of loans to Local Bodies is itself low and a lower rate cannot be accepted. For a loan of Rs 10,000/- repayable in 15 annual instalments with interest at 4½%, the annual equated payment will be Rs 931/- Including the maintenance charges estimated by the Director, at Rs 1,734/- the total amount payable by the Municipality every year will work up to Rs 2,665/- The Municipality hopes to realise Rs 1,125/- by the levy of water tax at six annas per rupee on tax on lands and buildings and Rs 900 from house connections Even assuming that these anticipations will be realised, it is very doubtful whether the Municipality will be able to meet the balance (Rs 640/- every year) from its funds, after meeting the other Rs obligations, including the commitments on account of Electric lighting recently sanctioned The Municipality has, I think, to be asked to state (1) whether it is willing to have a loan at 4½%(which is the minimum) repayable in 15 years, (2) how it will be able to meet the deficit referred to above, after taking into account the commitments on account of electric lighting and (3) whether it will be practicable in actual result to get Rs 900/- from house connections, i.e., Rs 18/- per annum from house connections plus

13)

Serial No

7C1026

the water tax payable

58) It is also necessary to make sure that the Government grant for this work can be found from the sanctioned allotment As I have brought to notice in several files, there is absolutely no scope for sanctioning further additional grant during the current year

20/10/38

59) Copy of the Ao distributing water supply grants for 1938-39 is forwarded herewith There is no room for giving a grant of Rs 15000. However unless an addl demand is placed before the Council by 15th proximo the sanctioned budget grant for 1938-39 is also forwarded (Flag B) The normal income is Rs 5996 and normal expenditure Rs 4224/- The OB for 1938-39 was Rs 1758/- and the CB will be Rs 1203/- whereas the requirement is Rs 1500/-

Flag A

60) The present expenditure on lighting is Rs 4701/- and the demand will soon exceed the allotment

20/10/38

(Vice Chairman)

61) The Municipal Council would certainly find it no easy matter to meet the annual

Maintenance charges (excluding the annual payments in respect of the capital outlay on the project) along with its commitment in connection with the supply of electric power. But in view of the importance of providing protected water supply to all such towns and the willingness of the Municipal council to tax itself fairly heavily for these public amenities, the scheme may be considered on the conditions mentioned in the foregoing notes. The rate of interest may be kept at 4½% as in the case of all local bodies.

Final Note by the Second Member of Council

Subject.— 115) Water supply to Belur Town

The Deputy Commissioner, Hassan District, submitted a scheme of water supply to Belur Town at an estimated cost of Rs 30,610/-

The Chief Engineer to whom the estimate was referred for scrutiny has revised it bringing up the estimate to - Rs 32,890/- so as to provide for a larger tank

In view of the importance of providing protected water supply to this town and the willingness of the Municipal Council to tax itself fairly heavily for the purpose, it is proposed to sanction the estimate for Rs 32,890/-, as revised by the Chief Engineer, the execution of the work being spread over two account years and the cost met by the Government and the Municipal Council in equal proportions

The Financial Secretary has suggested that the Government share of the cost, viz , Rs 16,445/- may be met out of the water supply grants for the year 1939-40

The Municipal Council has an investment of Rs 5,000/- In order to enable it to pay up the balance, it is proposed to sanction a loan of Rs 11,500/- to the Municipal Council, repayable in 15 equal annual instalments with interest at 4½% per annum

The Dewan and the First Member of Council are agreeable to these proposals and I solicit the gracious - sanction of His Highness thereto

/Tv Chandrasekara Aiyar

Second Member of Council

To

Amin-ul-Mulk Sir Mirza M. Ismail, K.C.I.E.,
O.B.E., C. St.J.,
Dewan Saheb of Mysore.

Sir,

We the members of the Municipal Council of Belur of the Hassan District beg to approach you with our prayer for immediate sanction of necessary amounts for giving the town protected water supply.

On account of prolonged draught this year the water difficulty has become very acute in Belur. It was felt that it was absolutely necessary to approach you for immediate action being taken to give relief to the people.

As we see from the records of the said municipal Council the matter has been on the anvil since about November 1928 and no appreciable headway has been made beyond framing estimates, revised estimates and nothing else.

The resources of our municipality admit of the possibility of the Government kindly sanctioning us a loan of Rs10,500/- repayable within the space of 20 years with interest at 4 annas more than what is paid on deposits in Mysore Government's Savings Banks.

You are graciously pleased to rennovate the famous Belur Temple at a considerable expense and it will be in fitness of things, if along with this the Sanskrit Patasala Building together with the Industrial Section and protected water works are also given to the said town as early as possible. With electricity that is going to be installed in Belur very soon we will have obtained all the requirements of the modern day facilities.

Briefly to put the financial aspect, the last revised estimate for water works that has been made is for Rs.30,600. The Municipal contribution will be Rs.15,000/- and the other Rs.15,000/- will have to be paid by the Government. We have now accumulated Rs.4,500/- and on account of economic depression it is not possible to raise funds locally to make up our quota and we therefore request the Government to be pleased to sanction us a loan of Rs.10,500/- as prayed for above. The resolutions of the said Municipal Council passed in a meeting specially convened for the purpose herein submitted

It is our earnest prayer that you may be pleased to direct that the said water works may be completed by the end of this year and water given from the 1st of January 1939. And as in duty bound we will ever pray.

We beg to remain,
Sir,
Your most obedient servants,
Members of Deputation
H T Seshaiya leader of Deputation

N O T E.

WATER SUPPLY:

An estimate of Rs. 47,600/- was originally prepared which was modified to Rs. 27,650/- as per request of the Municipal Council in September 1936. Later the Deputy Commissioner, Hassan District wanted the estimate to be still further reduced in his letter dated 28th May 1937. The President and the Deputy Commissioner were told that for the facilities they wanted, it would be impossible to reduce the estimate and that as the cost of materials has increased, the estimate of Rs. 27,650/- had to be modified to Rs. 30,610/- which was sent to the President. The revised estimate is dated 15th October 1937. The revised estimate has not been countersigned and returned by the President.

Decision recorded 8/7/38

DRAINAGE SCHEME.

An estimate for Rs. 24,310/- for the drainage scheme of Belur was sent to the President in the month of November 1937 and the estimate has not yet been returned countersigned.

A Malarial Survey of Belur town has been conducted and a report has been sent to the Deputy Commissioner. The Sanitary Engineer has arranged to get an estimate prepared for the Engineering works that have to be attended to to improve the malarial condition of Belur.

SIR

With reference to your letter No L.509, dated 14th July 1938, forwarding for report, a copy of the note re. the water supply scheme to Belur Town, received from the Director of Public Health, I have the honor to state as follows - ,

2. The Sanitary Engineer sent an estimate for Rs 30610/- for the water supply scheme to Belur. The Municipal Council who were requested to intimate the ways and means for financing the scheme, found it difficult to provide their quota of cost and obtained sanction to collect public subscriptions (Vide your letter No L.3942/M1.dated 30-10-37). But there was no progress in this direction They considered the subject at their meeting, held on 1st July 1938, and resolved that as they had only Rs 4500/- and were unable to provide the balance of their quota of cost Government might be requested to sanction a loan of Rs 10,000/- repayable in 20 years, at a small rate of (0-4-0) more than the rate of interest - interest on S B Deposits), in addition to a grant-in-aid of the other half of the initial expenditure The President has submitted for orders, a copy of his resolution The Sanitary Engineer has not yet furnished an estimate for the annual maintenance charges. While furnishing the estimate for the initial expenditure of Rs 27650/- in September 36, he had sent an estimate for Rs 2,000/- for maintenance harges Assuming that the maintenance charges to be Rs 2,000/- only, the Municipal Council will have to find funds both for meeting the annuity of the loan as well as the annual maintenance charges

p t p

3. In case a loan of Rs 10,000/- repayable in 20 years at 3½% interest is sanctioned to the Municipality, as resolved by them they will have to provide about Rs 700/- for paying the annuity They will thus, have to make up Rs 2,700/- for paying both the annuity and the maintenance charges. The average normal income and expenditure of the Municipality for the past 3 years are Rs 6,698/- and Rs 5,500/- respectively. This results in a surplus of about Rs 1,000/- per annum. The estimate provides for 50 house connections As each such connection is expected to yield a revenue of Rs18/- per annum, a sum of about Rs 900/- could be expected As this is an uncertain source and also as the Municipal Council will have to make up the balance of cost, they will have to levy a flat water rate at Re.0.6.0 per rupee of the taxes on buildings and lands The demand under assessed taxes after the revision of assessment is Rs 2800/- If water rate is levied at 0-6-0 per rupee, of this demand, a sum of Rs 1,050/- might be made up.

4. As the Municipal Council have not considered these aspects of the question, the records have been returned to the President, for furnishing their resolution On hearing from him, a further report will be sent to Government.

I have the honor to be,
Sir,
Your most obedient servant,

Deputy Commissioner,
Hassan District.

SIR

In continuation of my letter of even No dated 21st July 38, re the water supply scheme to Belur Town, I have the honor to forward herewith, in original, correspondence ending with Belur Municipal President's report No 16-37 dated 25th July 1938, on the same subject and to state as follows -

2 The Municipal Council have resolved at their Meeting held on 24th July 1938, that they are greeable to levy water tax at 0-6-0 per rupee of the demand under assessed taxes temporarily for 2 years as they expect to collect public subscriptions and discharge at least half the amount of the loan before the expiry of that period They have also prayed that a loan of Rs 10,000/- repayable in 20 years at 3½% interest might be kindly sanctioned by Government to meet the Municipal share of cost, and that the establishment, tools and plant charges (of Rs 3404) might be kindly waived in view of their inability to bear the same

3 As already reported in my letter dated 21st July 1938, referred to above, the annuity of the loan prayed for will work out to about Rs 700/- The Municipal Council have to provide a sum of Rs 2000/- for annual maintenance charges Out of Rs 2700/- required for meeting both these items of expenditure, a sum of Rs 1050/- could be expected from water tax and a sum of Rs 900/- from house-connection fees It is possible for the Municipal Council to meet the balance of Rs 750/- out of their annual surplus

4 In these circumstances, I request you to be so good as to

as to move Government to kindly sanction the estimate and the loan at a rate of ~~estimate~~ subsidy not exceeding 3½% to the Municipality. I further request that a grant-in-aid of the bare balance of cost might be sanctioned.

5. As water difficulty is being keenly felt in the town, I request you to be so good as to obtain orders of Government in the matter at a very early date.

6. The question of the levy of water tax at @-6-0 per rupee of assessed tax temporarily for 2 years as resolved by the Municipal Council will be separately reported.

I have the honor to be,
Sir,
Your most obedient servant,

For Deputy Commissioner,
Hassan District.

Sir,

Subject:- Belur Water Supply Scheme

With reference to the correspondence ending with your letter No. S T R 60/36-37 dated 30 7 35 on the above subject, I am directed to enquire as follows:—

1) Whether the Municipality is willing to take charge of Water Works as and when the supply of Water is found to meet the maintenance charges.

2) Whether the available balance of the Municipality are sufficient to meet the balance of the probable Rs 5,305 (Rs 5,305 minus the loan amount Rs 1,000)

3) to obtain the Municipality's sanction
to the loan of Rs 10,000 carrying interest
repayable in 15 years and

4) that it should be able to pay
the annual instalments (towards both the
principal and interest) after meeting
its other obligations such as electric
lighting charges

The rents are returned herewith
for copies and retransmission both
these reports early

Thanks etc

Yours sincerely

OFFICE OF THE DEPUTY COMMISSIONER,
HASSAN DISTRICT
(Camp) Mysore
Dated the 3rd October 1938.

From

T. Ramaiya, Esq., B.A., (Hons.,)
Deputy Commissioner, Hassan District.

To

P.H. Krishna Rao, Esq., M.A.,
Secretary to Government of His Highness the
Maharaja of Mysore,
Local Self Government Department,
BANGALORE.

Sir,

With reference to your letter No.L.2026 dated the 6th September 1938 regarding water supply scheme of Belur Town, I have the honor to state that the points raised in your letter under reference were considered by the Municipal Council at their special Meeting held on 16th September 1938 and the resolution of the Council is enclosed herewith. The Council is of opinion that in view of the levy of lighting tax at six annas on the demand of assessed taxes, the levy of water tax at 0-8-0 under the same head would work as a great hardship on the rate payers and they have therefore resolved to levy only 0-3-0 in the rupee of Mohatarfa which would work out to Rs.1125/- per annum. They furthe expect about Rs.900/- from house connections. Since the normal income and expenditure of the Municipality result in a surplus of Rs.1000/- as already mentioned in my previous letter No. D.T.R. 60-36 dated 20th July 1938, it ispossible to meet the maintenance charges of Rs.1,100/- as also the annuity of Rs.880/- towards the loan of Rs.10,000/- proposed to be sanctioned.

The Council have at their credit a sum of Rs.4998/- under investments and it will not be difficult for them to find the bulance to make up a sum of Rs.5305/- which they have promised to pay out of Municipal Funds.

As regards the loan of Rs.10,000/- at 4½% repayable in 15 years, the Council have resolved that it is not possible to pay such high rates of interest. They are agreeable to accept

accept the loan at 4% repayable in 20 years. The period of repayment may in my opinion be fixed at 15 years.

I request you to kindly move Government to sanction a loan of Rs.10,000/- at 4% repayable in 15 years, towards the Water Supply Scheme of Bolar Town at an early date. The entire file of records are enclosed.

I have the honor to be,
Sir,
Your most obedient servant,

Deputy Commissioner,
Mysore District.

Sir,

Subject Belur Water Supply Scheme.

With reference to correspondence ending with your memo No.L. 4552-3/3-12-38 forwarding a copy of your letter No.L.4551 dated 3rd December 1938 addressed to the Director of Public Health in Mysore, Bangalore on the above subject, calling for a detailed plan and estimate for the water supply scheme to Belur, I have the honour to state as follows:-

2. Representations re the scarcity of water, having been made to the Dewan, during his recent visit to Belur, he was pleased to instruct that the work should be expedited without any delay, as the difficulty for water this summer is likely to be more acute and trying than usual An extract of tour notes is enclosed for reference.

3. I enclose also a copy of report received from the President, of the Municipality stating that water difficulty is already being felt and praying that the water supply scheme may be taken up without delay

4. In these circumstances, I request that the Director of Health may kindly be addressed in the matter of expediting his reply and that Government may be moved to kindly sanction the scheme very early.

I have the honour to be,
Sir,
Your most obedient servant,

Deputy Commissioner,
Hassan District.

Hassan District Deputy Commissioner's Memo No D T R.60/36-37 dated 16-2-38

Subject
Supplying Belur Town with drinking water by means of taps from water pumped from a well

so far Almost all the wells in the fort area have dried up and the scarcity of water is very keenly felt among the inhabitants With the summer season ahead, with dearth of water in the wells the situation so far as water supply is concerned will be very acute, and if the scheme of water works does not materialise early no relief can be afforded to the people in this behalf

In the above circumstances, I request you to kindly use your good offices to remind the Government about the present situation and future consequences and kindly see that the water works scheme is sanctioned very soon and the work taken up early

From

T. Ramaiya, Esq., B.A.(Hons)
Deputy Commissioner, Hassan District.

To

P. H. Krishna Rao, Esq., M.A.,
Secretary to Government, Local Self Government
Department, Bangalore.

Sir,

Subject: Belur Water Supply Scheme.

With reference to correspondence ending with your Memo No. L.5022 dated 19-12-38 forwarding a copy of your letter No.L. 5023 dated 19-12-38 addressed to the Director of Public Health in Mysore, Bangalore on the above subjedt, requesting him to expedite his reply, I have the honour to state that so far I have not heard from the Director of Public Health in the matter.

I enclose herein a copy of D.O.letter No.nil dated 10-1-39 received from the President, Municipal Council, Belur, stating that the scarcity of water is very keenly felt by the inhabitants of the town and requesting me to address the Sanitary Engineer in the matter of taking action in the execution of the work.

In view of the urgency of the need for supply of water to the townspeople, I request that the required information may kindly be obtained from the Director and the Government may kindly be moved to sanction the scheme and its execution forthwith.

I have the honour to be,
Sir,
Your most obedient servant,

Deputy Commissioner,
Hassan District.

D O letter dated 10th January 1939 from the President, Municipal Council, Belur to the Deputy Commissioner, Hassan District

---

I beg to bring to your kind notice once again the acute difficulty that is being experienced in Belur Town for drinking water This was also brought to your kind notice on the 9th instant during the Taluk Conference So far, no officer of the Sanitary Department has come here in this connection, although the Department was intimated more than a fortnight back that the area of one gunta of land near the "Vishnu Samudra" tank which was required by them for sinking a trial pit was placed at their disposal The people in the Town are drinking insanitary water and are loudly complaining that the Municipality has failed to provide them with good drinking water I therefore approach your good self once again to kindly see your way that the Sanitary Department treat the matter as urgent and take up the work without further loss of time

The Sanitary Department have not even had the courtesy of acknowledging my communication

To

P H Krishna Rao, Esq , M A ,
Secretary to Government, Local Self Government
Department, Bangalore

Sir,

Subject Belur Water Supply Scheme

1 With reference to correspondence ending with your Memo No L 6118/M1 dated 30th January 1939 on the above subject, fowarding plans and estimate amounting to Rs 32,890/- for the work, I have the honour to return herewith the estimate duly countersigned by the President, Belur Municipal Council and to state as follows -

2 The Municipal Council who considered the ways and means for meeting the increase of Rs 2,280/- in the estimate, at their meeting held on 4-2-39 resolved that Government might be requested to sanction a grant of another loan of Rs 1140/- repayable in two instalments to make up the Municipal quota of cost in addition to a grant-in-aid of the other half of the excess cost

3 As regards the opinion of the Municipal Council that it would be better if the supply of water to Belur town is taken from Yagachi river contained in the last para of the resolution, I invite reference to the note accompanying the original estimate prepared by the Executive Engineer Sanitary and Town Planning Division, Bangalore, during August 1929 which shows that the scheme was given up on account of the heavy maintenance charges involved

4 In these circumstances, I request you to kindly move Government to sanction (1) the plan and estimates countersigned by the President (2) a grant of a further loan of Rs 1140/- in

already
hl for

in addition to a grant-in-aid of the other half of the increase of Rs.2280/- in the estimate

The connected records together with the plan and estimate accompany.

I have the honour to be,
Sir,
Your most obedient servant,

Deputy Commissioner,
Hassan District.

Proceedings of the Govt. of H. H. the Maharaja of Mysore.

Read:-

Correspondence ending with letter No. D.T.R.60/36, dated 15th Decr. 1938, from the Deputy Commissioner, Hassan District, submitting for sanction a scheme for supplying water to Belur Town at an estimated cost of Rs. 30,610/-.

2. Correspondence ending with letter No.C.269-15, dated 3rd January 1939 from the Director of Public Health on the subject.

3. Correspondence ending with U.O. Note No. To. 450, dated 26th January 1939, from the Chief Engineer, returning the estimate checked and corrected to Rs.32,890 so as to provide for a larger capacity over-head tank.

In letter No. A 60/36 dated 23 of the Deputy Commissioner, Hassan

Order No.

The estimate for Rs. 32,890/- as revised by the Chief Engineer is sanctioned the execution of the work being spread over two account years and the cost met by the Municipal Council and the Government in equal proportions.

2 The Government share of the cost viz., Rs. 16,445/- will be met out of the Water

Supply grants for the year 1939-40.

3 Regarding the Municipal quota of the cost, Government observe that the Municipal Council has a sum of Rs. 5,000/- under investments. In order to enable it to pay up the balance, Government are pleased to sanction a loan of Rs.11,500/- to the Municipal Council, subject to ~~the~~ repayment in 15 equal annual instalments with interest at the rate of 4½% per annum.

4. The Deputy Commissioner, Hassan, is requested to see that due provisions ~~are~~ made in the annual budgets of the Municipality for the payment of the instalments of the loan regularly. The Municipal Council should also take steps to levy water -- rate at the rate of six annas in the rupee of mohatarfa, as agreed, to enable it to meet a portion of the annual maintenance charges.

5 The Director of Public Health is requested to commence the work immediately with the amount that may be made available by the Municipal Council from the sources referred to in para 3 supra.
